Dear Admissions Committee,

I am writing to recommend Kasun Prabath for the Master of Science in Data Science program at Harvard University. I have known Kasun for the past three years as his professor in the Data Science program at the University of Colombo.

During his time in my program, Kasun has consistently demonstrated his strong academic skills and his passion for data science. He has a deep understanding of the theoretical foundations of data science, and he is also able to apply these concepts to real-world problems. Kasun is also a highly motivated and independent learner. He is always eager to learn new things, and he is not afraid to take on challenging tasks.

In addition to his academic achievements, Kasun is also an active member of the data science community. He has presented his research at several conferences, and he has also published several papers in peer-reviewed journals. Kasun is also a gifted public speaker, and he is able to communicate complex technical concepts in a clear and concise way.

I have no doubt that Kasun would be an asset to your program. He is a talented data scientist with a bright future ahead of him. I highly recommend him for the Master of Science in Data Science program at Harvard University.

Sincerely, Thank you

Prof. K.S. Lasith Gunawardena
D. Eng., M.Sc., B.Sc., SMIEEE, FBCS, MCS
Professor and Head, Department of Information Technology,
University of Sri Jayewardenepura.
